

PRAKASH THANGARAJ

Front-End Engineer / Lead

India | +91 8870690977 | mailfromprakash@gmail.com | <https://prakasht.netlify.app/>
<https://www.linkedin.com/in/prakaships/> | <https://dribbble.com/PrakashIPS>

SUMMARY:

- **Frontend Developer** with over 10 years of experience in building high-performance web applications and 5+ years in UI/UX design. Proficient in **JavaScript, React, Angular, TypeScript, UI/UX** and API integration.
- **Skilled** in problem-solving and cross-functional collaboration, delivering scalable solutions that enhance **user experience**. Experienced in **Agile** environments, **leading** teams, **mentoring** developers, and ensuring high-quality, maintainable code.
- Based in India, firmly seeking front-end development opportunities in Ireland and Europe. Open to relocate at the earliest possible and eligible to obtain required work permits.

SKILLS & EXPERTISE:

- *Frontend Development:* **JavaScript, TypeScript, HTML5, CSS3, SCSS**
- *Frameworks & Libraries:* **React, Angular**, Hooks, **Redux**, **Thunk**, Saga, **NGRX**, **RXJS**, **Alpine.js**, **Preact**, **TailwindCSS**, **Bootstrap**, **PrimeNG**.
- *API Integration & Micro services:* **REST APIs, GraphQL**, Swagger Micro Services Architecture.
- *Testing & Tools:* **Jest**, **React Testing Library**, **Cypress**, **Jasmine**, **Karma**, **TDD**, **Docker**, **GG Shield**.
- *Version Control & CI/CD:* **GitHub**, **Bitbucket**, **GitLab**, **Azure DevOps**, **Bamboo**.
- *Soft Skills:* Interdepartmental Coordination, **Mentorship**, **Code review**, **User Experience**.

WORK EXPERIENCE:

SENIOR FRONTEND ENGINEER - CONNEQT BUSINESS SOLUTIONS (ADOBE)

Apr 2024 – Present

- Developed controllers, mappers, and components using **TypeScript** and **Alpine.js** for seamless integration with **AEM** and **GraphQL APIs**. Effective collaboration between front-end, **AEM**, and architects.
- Engineered a high-performance, **JavaScript**-driven page with minimal **Preact**, optimizing **DOM** manipulation and event handling while leveraging **Adobe EDS** for content authoring.
- Achieved **95% code coverage** with **Jest** and ensured high-quality code. Conducted **accessibility testing** (WCAG) using **NVIDIA** tools for inclusive, user-friendly applications.
- Provided mentorship to junior developers, conducted **code reviews**, and ensured adherence to best practices while maintaining **code security** using **Git Guardian**.

LEAD FRONTEND ENGINEER - EMIS HEALTH (UK)

Sep 2023 – Jan 2024

- Enhanced the Extract Builder application for the **UK NHS**, streamlining data querying and reporting for government submissions.
- Generated advanced search features and robust report generation for comprehensive healthcare data analysis.
- Managed **clinical** and **ethnicity codes**, ensuring accurate and compliant data handling for government reports.
- Refined application functionality using the **Cohort-builder-kit**, **Query Manager**, and **Query Builder Library** for seamless integration.

LEAD FRONTEND DEVELOPER & UI/UX EXPERT - MINDPRO TECHNOLOGIES

Apr 2014 – Sep 2023

- Delivered **10+** apps, and chatbots using **React, Angular, JavaScript, HTML5, CSS3**, and **SCSS** with expertise in **Redux, NGRX**, and **RXJS** for state management while managing multiple projects simultaneously.
- Integrated **REST APIs** with front-end applications and documented APIs using **Swagger** for seamless backend communication and API management.
- **Led UI/UX design**, built **50+ user-centric**, responsive interfaces focused on enhancing user experience using **Adobe XD, Photoshop**, and **Illustrator**, with select designs showcased on Dribbble.
- Ensured code quality through **TDD**, unit testing with **Jest, Jasmin, Karma**, and **React Testing Library**, maintaining good code coverage, and collaborated via **GitHub, Bitbucket**, and **Azure DevOps**.
- Managed projects using **Agile (Scrum)** methodologies, collaborating with Inter-Team Cooperation and conducting **code reviews** to drive performance and ensure best practices.

PROJECT SUMMARY:

MARUTI SUZUKI (Adobe) - Feb 2025 - Present

- Engineered a high-performance, JavaScript-driven page with minimal **Preact**, optimizing **DOM** manipulation and event handling.
- Leveraged **Adobe EDS** for seamless content authoring and dynamic page updates.

T-MOBILE (Adobe) - Apr 2024 – Feb 2025

- Built dynamic components with TypeScript and Alpine.js, integrated them with AEM via GraphQL, ensured code security with GG Shield, and managed AEM packages using CRX and Docker.

EXTRACT BUILDER / FEASIBILITY SERVICE - Sep 2023 – Jan 2024

- Worked on Query Builder application using **React (TypeScript)**, **Redux**, and **REST API** integration.
- Constructed features for search creation, allowing doctors to filter datasets based on various criteria.

MATRIX ESERVICES (US BASED) – Mar 2019 – Sep 2023

- Built insurance eClaim projects using **Angular, PrimeNG, NGRX** and **RXJS**.
- Build multi repo level components, modal, mock data and Templates, used ADO for agile and CI/CD.

TIME TRACKER - Apr 2022 – Mar 2023

- Crafted a user-friendly web app for tracking employee activity using **React, Redux Tool Kit, TailwindCSS** and **REST**. Solely responsible for managing the entire front-end development.

ASSISTANCE CHATBOT - Apr 2018 – Mar 2022

- Developed a multi-language **chatbot** with voice recognition and playback using **Angular**, integrating **REST APIs** for seamless communication, and implemented a custom JavaScript-based leave planner chart to calculate and display user data without external libraries.

EDUCATION & CERTIFICATES:

- Bachelor of Engineering (Computer Science) – Apr 2013.
- Udemy – **Advanced JavaScript Masterclass**– Nov 2024 - [Credentials](#)
- LinkedIn - **Learning GitHub** - Oct 2023. - [Credentials](#)
