

PRAKASH THANGARAJ

Lead Frontend Engineer | +91 8870690977 | India | mailfromprakash@gmail.com | [linkedin.com/in/prakaships/](https://www.linkedin.com/in/prakaships/) | github.com/ipsrepo

WORK EXPERIENCE

Conneqt Business Solutions (Adobe) | Senior Frontend Engineer

04/2024 - Present

- Developed reusable controllers and UI components in **TypeScript + Alpine.js** integrated with **AEM via GraphQL**, enabling faster enterprise content authoring.
- Delivered mobile-first pages on **Adobe EDS** with minimal Preact, improving **page load time by ~25%** and boosting interaction performance.
- Maintained **~95% unit test coverage** with Jest; ran **WCAG 2.1 accessibility checks**; mentored junior developers and led code reviews.

EMIS Health (UK) | Senior Frontend Engineer

09/2023 - 01/2024

- Enhanced the **Extract Builder** application (React/TS, Redux, and REST APIs), cutting NHS **query configuration time by ~40%**.
- Added cohort-builder features to validate complex clinical searches, improving efficiency of dataset handling for doctors.
- Ensured compliance in handling clinical and ethnicity codes, supporting accurate government submissions.

Mindpro Technologies | Frontend Developer & UI/UX Expert

04/2014 - 09/2023

- Delivered **10+ production web apps and chatbots** using React/Angular with Redux & RXJS/NGRX, reducing delivery cycle times through component reuse.
- Designed **50+ responsive interfaces**, showcased on Dribbble; enhanced usability scores in client UAT by **~30%**.
- Applied **TDD (Jest, Jasmine, Karma)** and CI/CD (GitHub, Bitbucket, Azure DevOps), reducing production bugs by **~20%**.

CORE SKILLS

- Languages:** JavaScript, TypeScript, HTML5, CSS3/SCSS
- Frameworks/Libraries:** React, Angular, Redux/Thunk/Saga, RXJS, NGRX, Preact, Alpine.js, Tailwind, Bootstrap, PrimeNG
- Platforms/CMS:** Adobe Experience Manager (AEM), Adobe Edge Delivery Services (EDS, DOM-based rendering)
- APIs & Backend:** REST, GraphQL, Node.js, Express.js, MongoDB, Micro services.
- Build & Tooling:** Webpack, Babel, ESLint, Prettier, Storybook and Micro-frontends
- Testing/DevOps:** Jest, RTL, Cypress, Jasmine, Karma, TDD, Docker, GitHub/GitLab/Bitbucket, Azure DevOps, Bamboo
- Accessibility & Soft Skills:** WCAG, Lighthouse, Team/UX collaboration, mentorship, code review, user experience

PROJECTS

MARUTI SUZUKI (Adobe) - Implementation

- Engineered a high-performance, JavaScript-driven page with minimal **Preact**, optimizing **DOM** manipulation and event handling.
- Leveraged **Adobe EDS** for seamless content authoring and dynamic page updates.

T-MOBILE (Adobe)

- Built dynamic components with **TypeScript** and **Alpine.js**, integrated them with **AEM via GraphQL**, ensured code security with **GG Shield**, and managed AEM packages using **CRX and Docker**.

TIME TRACKER

- Constructed a user-friendly web app for tracking employee activity using **React, TailwindCSS, REST API, Node.js, Express.js**, and **MongoDB**. Independently managed whole development.

ASSISTANCE CHATBOT

- Developed a multi-language Chatbot with voice recognition and playback using **Angular**, integrating **REST APIs** for seamless communication, and implemented a custom JavaScript-based leave planner chart to calculate and display user data without external libraries.

EDUCATION

- B.E., Computer Science Engineering (CGPA : 8.11/10)
Anna University, Chennai, India
